

- 1) How God has lead this particular pastor to form virtual biblical communities.**
- 2) The growing need for online biblical communities (video clip)**
- 3) Some pragmatic implications of Grace's live online community.**
 - a) Identifying the needs and seeking to meet them.
 - b) Moving from concept to reality within major budget constraints.
- 4) Functioning as a growing online community.**
 - a) Measuring usefulness both locally and online.
 - b) Reaching beyond local community, seeing souls saved.
 - c) Revitalizing and reenergizing the local community.
- 5) Technical resources to foster live online community.**
 - a) Free software resources to help get you going.
 - i) Bigbluebutton
 - ii) Red5
 - iii) Website and Bandwidth considerations.
 - b) Example setup for low budget streaming.
 - i) Where to stream.
 - (1) Youtube.com for non-profits.
 - (2) Livestream.com
 - c) Broadcasting Equipment and Bandwidth Constraints.
 - (1) Computer, camera, and audio needs.
 - (2) Internet Service Provider and web hosting.
 - d) Live Broadcasting Software
 - (1) Wirecast – (free and paid versions)
 - (2) Adobe Flash Media Live Encoder – (free)
 - (3) Procaster – and Mobile app.
 - e) CCLI Podcasting License and limitations.

That's the nutshell version. I'll have greater detail in the notes that I'll publish on our website after the event and I'll add links to the places I've mentioned so you can easily do the research.
